

Faces Not Forgotten is here to comfort, to bring peace, and to share the memories of our children and our young people. Artists volunteer their talents to paint portraits of children, age 20 and under, who have died from gun violence.

It is our hope that by putting a "Face" to these young victims we can raise awareness about gun violence in the USA and honor the memory of each child. All original portraits are donated to the families to commemorate their loss. These children are not just numbers. Each child was a life ended. Each one has a face.

Faces Not Forgotten

Are you or do you know someone who has lost a child to gun violence who would like to be part of Faces Not Forgotten? Please refer to the release form below for participation.

If you would like to add your talents to the project including attending and assisting in future exhibits, please contact us:
